

SHIFTBOARD SOLUTION

SMARTER WORKFORCE SCHEDULING

Optimize Your Workforce

Reduce Overtime and Labor Costs

Lower labor costs through optimized shift assignments, reduced overtime, and more productive managers and schedulers.

- Minimize overtime and total labor costs by automating business rules into the schedule creation process.
- Ensure ideal worker is assigned based on a wide range of parameters like seniority, credentials, location, and cost.
- Automate repetitive scheduling tasks, freeing up managers and schedulers to focus on higher value activities.

On average, customers reduce overtime by

51%

Ensure Schedule Accuracy and Compliance

Reduce over-staffing expenses, avoid unexpected compliance violations, and staff to meet service needs.

- Automate shift creation and assignment based on the rules and regulations that govern your business.
- Improve schedule accuracy by better aligning customer demands with available and qualified labor.
- Restrict shift assignment to only those workers who meet the shift requirements and have up-to-date credentials.

On average, customers reduce turnover by

40%

Improve Worker Retention and Satisfaction

Real-time communication tools and greater schedule visibility empower workers to achieve better work/life balance.

- Keep your workforce in the know with real-time schedule updates through mobile apps, email, and SMS text messages.
- Allow workers to sign-up for shifts, enabling schedulers to quickly find and replace call-outs with those who want to work.
- Enable self-service scheduling by allowing workers to pick up shifts, trade shifts, clock-in, and set their availability.

On average, customers increase schedule creation efficiency by

53%

Shiftboard Platform

Labor Planning
