

COMPANY OVERVIEW

What Makes Us Unique

Page Automation (Pty) Ltd is the largest independent distributor and systems integrator in South Africa of selected money handling, office automation, time & attendance, audio visual & video conferencing, digitisation and archiving and voice, cloud & data solutions.

Established in 1999, the company now has offices and service centres located countrywide.

Service Accreditation

As a leading distributor and supplier, Page Automation has full technical accreditation from all its manufacturers.

All technicians undergo accredited technical training and must meet the manufacturers repair standards before they are authorised to maintain any equipment. In addition, on-going training is provided by the manufactures to keep our technicians up to date.

BEE Status

Page Automation (Pty) Ltd is a 51% black owned and 43.35% black woman owned, level 1 BEE contributor allowing our customers to claim a B-BBEE recognition level of 135% on all their purchases. In addition, our customers can further claim in the following categories allowing them to greatly enhance their own scorecards:

- Spend from all empowering suppliers.
- Spend from 51% black owned suppliers.
- Spend from 30% black woman owned suppliers.

Page Automation

Intelligent workplace efficiency

Our Vision

To lead our customers towards improved workplace efficiency, enabled and assisted by the latest technology and state-of-the-art products, allowing employees and businesses to deliver optimal performance.

Resources & Skills

Page Automation relies on the commitment, skills and diversity of its employees and therefore focuses on retaining, motivating and leveraging the strengths of its people to maintain a high performance, customer centric culture.

The company attributes its strength to the team of experienced and knowledgeable individuals it has attracted and grown over the years.

With access to a range of resources and skills, the company has the ability to not only sell the product, but also to arrange finance, service, maintenance, installation as well as supply consumables throughout South Africa and neighbouring countries.

OUR PRODUCTS

All the products supplied by Page Automation can be covered by a monthly maintenance contract or extended warranty, customised to meet your business requirements. These products are carefully selected for their worldwide reputations that support the company's goal of providing quality products at cost effective rates, whilst maintaining high service levels at all times.

Office Automation

As a Kyocera premier partner, Page Automation is a national distributor and the largest supplier in South Africa for the full and extensive range of Kyocera Document Solutions, Multi functionals, Laser Printers, software solutions and consumables.

Money Handling

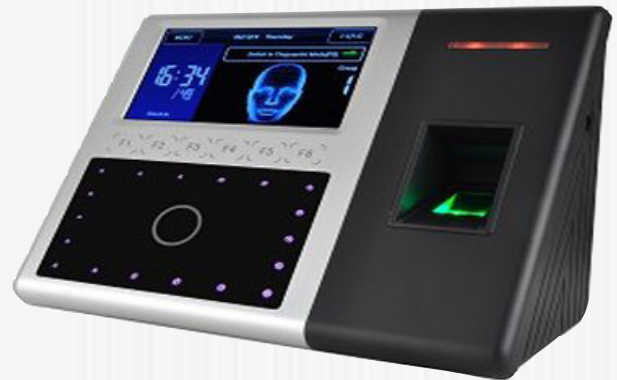

With the world's best banknote technology, Page Automation provides a comprehensive range of cash handling products, from leading edge self-service solutions to comprehensive banknote and coin counting equipment.

Voice & Data

Page Automaton are able to provide a wide array of connectivity solutions. Our service provider aggregated solutions comprise next-generation connectivity services including fibre, LTE (APN), Microwave and ADSL. Our virtual PBX phone systems uses IP communication, allowing businesses to make calls over the internet.

Time & Attendance

SmartTime is an innovative solution used to track time and attendance, manage shifts and leave, create and modify schedules, identify potential over and under staffing issues whilst providing organization wide insights on how to allocate your resources.

Smart Slip

SmartSlip is an innovative, easy to implement and cost-effective service allowing employers to deliver documents such as payslips, tax certificates, pension statements and newsletters via cellular phones, web interfaces and kiosks.

Zoom Video Conferencing

With Page Automation's ZOOM solutions we create collaborative, easy-to-use, and modern meeting spaces with high quality video and audio conferencing across an entire organisation in a matter of hours.
